

Student Spotlight

Congratulation to Patricia Benning for scoring a 100% on the Science Test over our unit on the Earth Moon & Sun.

Congratulations to John Broadwell for completing all 10 of his Novels with a test average. Great Job JB!

Congratulations to Kat Wilson for earning November Student of the Month. Kate is new to our Wildcat Family and she has been an awesome addition to our 6th grade class.

Up Coming Events

Dec. 14 - Greenbush STEM today

Dec. 19 - CHRISTMAS PARTIES - @ 2.:30

Dec 20 - !/2 Day School Christmas BREAK STARTS

Curriculum

Science ~ 6th Grade is currently working on a Planet or Space Object Google Slide Presentation with a partner. They will present facts about either a planet, galaxies, asteroids, meteors, or comets while the rest of the class will take notes over the presentation on a recording sheet. These are to be ready to present on Tuesday, December 4th.

Number the Stars - We are just about to finish our first novel. The story is getting really exciting and some students have already read ahead because the anticipation of what was going to happen next got the best of them. YEA for READING!

Math - Sixth graders have been preparing for a test this week over Chapter 3. This chapter includes the Commutative, Associative, and Distributive Properties. Students need to be able to identify, use, and apply these skills. Our next chapter is over Area and we will finish this before Christmas Break.

Language Arts - We are continuing our work on various types of nouns. This is a grammar skill that need to be at the mastery level in 6th grade.

CHRISTMAS PARTY -

Anna - drinks,

Treats - Jack, Mallory, Cadence,

Wyatt, & Landry
