## Picture Retakes and Class Picture Day!

## National School Bus Safety Week is

October 21 -25. Be sure to tell your favorite driver thanks for helping to make school happen each day! Here are some interesting and fun facts regarding public school transportation as provided by the National Association for Pupil Transportation and schoolbusfacts.com

26 Million students are transported each day in the USA by school buses. One school bus carries the passengers equivalent to 36 cars which will end up in a year's time doing this:

A. saves 62 billion miles of driving

B. saves 2.6 billion gallons of fuel

C. saves 56.5 billion pounds of carbon dioxide emissions from entering our atmosphere.

It has also been estimated that traveling by school bus is 70 times safer than if you were to travel to school in private vehicle.

## Parents' Right to Know

Each of the District's five, K-8 school buildings has a KSDE approved school-wide Title I program. A school-wide program permits our schools to use funds from Title I, Part A and other Federal education program funds and resources to upgrade the entire educational program of the school in order to raise academic achievement for all the students. This contrasts with a Title I targeted assistance program, through which Title I, Part A funds are used only for supplementary educational services for eligible children who are failing or at risk of failing to meet State standards.

As a school-wide Title I program we are required, at the beginning of every school year, to tell parents they have a right to request the following information about the professional qualifications of their children's teachers.
