

## Mr. Allison's News

**Math:** We are continuing to work on division facts 0-12. Practicing addition, subtraction, and multiplication is still important so they can become automatic with the answers. Also please keep reminding them about "attention to detail" during math and labeling their answers.

**Reading:** The biggest thing you can do at home is to have your child **read out loud nightly**. Reading out loud helps them develop fluency skills that we work on in class. Also, read to your child from time to time. this is a great way to model what fluency looks like.

**Science:** We will start to talk about forces and motion. We will be doing different tasks to see how different forces make objects act.

### Specials: 2nd Semester

**M/W/F - P.E**

**T/Th. - Music**

**Wed. - Library - bring books back**

**Student Teacher:** *Joe Royer will be joining us for the second semester as a student teacher. He will teach lessons under my supervision and help manage the classroom like a teacher as the semester moves along. I will still be in the classroom and we will work together to ensure a great learning experience for him as well as your children.*

**Planner:** *Please continue to check your child's planner nightly. I know this may seem frivolous but it helps teach them responsibility and organization. Thank you for the continued support and trust you give me with your child each day.*

### Upcoming:

1/15 - Wildcat Families Meet

1/20 - No School

1/24 - Bake Sale

1/27-1/31 - Spirit week
