

4th Grade

Math

We recently finished a chapter relating fractions and decimals. We talked about the tenths and hundredths places. We also did different operations with money. Our next chapter is over measurement equivalence.

Spring Break is coming! There will be no school on Friday, March 10. Spring Break is the following week, March 13-17.

Language Arts: We have been discussing point of view and idioms in language arts. We are also working on using context to figure out vocabulary words.

Science/Social Studies: We recently finished a science unit on animal structure and function. We have now started our last region of the United States, the West.
