

# 7TH GRADE CLASSROOM NEWS

## ELA & SCIENCE

ELA - We will begin our grammar usage and mechanics review next week. This will cover parts of speech, punctuation, capitalization, and sentence structure. We will also read and analyze some short stories.

In Science, We have been covering lab safety, safety symbols, and practicing routines since the start of school. Seventh Grade's first unit is The Characteristics of Cells. All 3 science classes will take a Scientific Prefix, Suffix, or Root Word quiz every week starting September 12th. The word list, schedule, and practice activities are located in their Science Google Classroom.

## MATH & SOCIAL STUDIES

Math - We are starting with Adding and Subtracting Rational Numbers. This includes whole numbers, fractions, and decimals. We will have a weekly quiz starting on Thursday, September 14th. The Thursday quizzes will review basic knowledge that will help them throughout the year. Please make sure that your child knows their address and your phone number.

Social Studies - We are currently studying the Geography of the world and maps. Students will have a quiz next week over continents and vocabulary from this week.

## UPCOMING EVENTS

First novel should be read and tested on before September 15th.

## 🔔 Reminders!

Please remember if you send a snack that it needs to be "healthy". I do not mind snacks anytime that my homeroom students are in the classroom. They just have to clean up any messes.
